

GP General Purpose/Specialty Drainage Catheters

GP General Purpose Drainage Catheter

ULTI-flo General Purpose Drainage Catheters with AFA Aspiration/Flush Adapter

ULTI-flo 20+ General Purpose Catheter

GP General Purpose/Specialty Drainage Catheters

Ease of Insertion

- Reinforced tip to help catheter from buckling during insertion
- Enhanced surface lubricity of UreSil Tru-Slide Plus hydrophilic coating facilitates catheter advancement and tracking

Patient Comfort

- Ureflex Soft catheter material is designed to provide enhanced patient comfort

Patency

- Exceptional catheter material features inherent column strength and superior memory for faster kink recovery
- Thin wall design, large skived drainage holes along with large bore hub provides excellent flow rates
- Unique locking mechanism is leak resistant and provides secure fixation of the pigtail
- Smooth, lubricious surface of the catheter's inner wall can help reduce encrustation and maintain patency

GP General-Purpose Drainage Catheter with locking pigtail

Includes catheter, metal cannula and trocar. Hydrophilic-coated catheters also include flexible cannula **. 5 units per box.

Size/Length*	Hydrophilic-coated		
	Ureflex-Soft	Hydrophilic-coated	Non-coated
6F/18cm	GPL2-0625HB	GPL2-0625H	GPL2-0625
8F/21cm	GPL2-0830HB	GPL2-0830H	GPL2-0830
10F/21cm	GPL2-1030HB	GPL2-1030H	GPL2-1030
12F/20cm	GPL2-1230HB	GPL2-1230H	GPL2-1230
14F/21cm	GPL2-1430HB	GPL2-1430H	GPL2-1430
16F/21cm	GPL2-1630HB	GPL2-1630H	GPL2-1630

Mini-Pigtail - Sistema de Drenagem com locking pigtail

Includes catheter, metal cannula, flexible cannula ** and trocar. 5 units per box.

Size/Length*	Hydrophilic-coated		
	Ureflex-Soft	Hydrophilic-coated	Non-coated
6F/20cm	MPL2-0625HB	MPL2-0625H	MPL2-0625
8F/25cm	MPL2-0830HB	MPL2-0830H	MPL2-0830
10F/25cm	MPL2-1030HB	MPL2-1030H	MPL2-1030

Short Mini-Pigtail Cateter de Drenagem com locking pigtail

Includes catheter, metal cannula, and trocar. 5 units per box.

Size/Length*	Hydrophilic-coated		
	Ureflex-Soft	Hydrophilic-coated	Non-coated
6F/12cm	KDL2-0617HB	KDL2-0617H	KDL2-0617
8F/12cm	KDL2-0817HB	KDL2-0817H	KDL2-0817
10F/12cm	KDL2-1017HB	KDL2-1017H	KDL2-1017

** Obturator included in 6F only.

GP General-Purpose Drainage Catheter with "J" tip

Includes catheter, metal cannula and trocar. 5 units per box.

Size/Length*	Hydrophilic-coated		
	Ureflex-Soft	Hydrophilic-coated	Non-coated
6F/15cm	GPJ-0620HB	GPJ-0620H	GPJ-0620
8F/19cm	GPJ-0825HB	GPJ-0825H	GPJ-0825
10F/19cm	GPJ-1025HB	GPJ-1025H	GPJ-1025
12F/19cm	GPJ-1225HB	GPJ-1225H	GPJ-1225
14F/20cm	GPJ-1425HB		

Includes catheter, metal cannula and trocar. 5 units per box.

AFA Aspiration Flush Adapter

Syringe-activated aspiration/flush assembly with clamp for connection to Uresil standard luer catheter

AFA Aspiration Flush Adapter
AFA LL

Units Box
5

ULTI-flo General Purpose Drainage Catheters with AFA Aspiration/Flush Adapter

Increased Flow

- Eliminates the restriction to flow caused by conventional connector sets and tube adapters by increasing the restricting lumen by 25%
- Provides a full, non-restricting lumen into the drain tube when combined with the Uresil Tur-Close Gravity (TC600) or Tru-Close Suction (TCS series) drainage bags

AFA Aspiration/Flush Adapter

- Convenient way to aspirate/flush during catheter maintenance
- Self-sealing, syringe-activated port for added safety

Ease of Insertion

- Reinforced tip to help prevent catheter from buckling during insertion
- Enhanced surface lubricity of Uresil Tru-Slide Plus hydrophilic coating facilitates catheter advancement and tracking

Patient Comfort

- Ureflex-Soft catheter material is designed to provide enhanced patient comfort

Patency

- Enlarged lumen reduces the potential for occlusion during drainage of highly viscous fluids and those with small tissue particles
- Exceptional catheter material features inherent column strength and superior memory for faster kink recovery
- Thin wall design, large skived drainage holes along with large bore hub provides excellent flow rates
- Patented locking mechanism is leak resistant and provides secure fixation of the pigtail
- Smooth, lubricious surface of the catheter's inner wall can help reduce encrustation and maintain patency

General Purpose Drainage Catheter

ULTI-flo Drainage Catheter Locking Pigtail and AFA Aspiration/Flush Adapter

AFA Aspiration Flush Adapter

Syringe-activated aspiration/flush assembly with clamp for connection to Uresil ULTI-flo system

Includes catheter, flexible cannula, trocar, rigid cannula, large bore tube adapter, syringe connector, and AFA adapter. 5 Units per box.

Size/Length	Hydrophilic-coated Ureflex-Soft	Units/box	AFA Aspiration Flush Adapter	Units/box
14F/19 cm	LBL2-1430HB	5	AFA-LB	5
16F/19 cm	LBL2-1630HB	5		

*Working length is equal the distance between hub or stress relief and pigtail

ULTI-flo 20+ General Purpose Catheter

- Available in sizes 20F, 24F and 28F
- Made of soft and flexible polyurethane material for enhanced patient comfort and flexibility
- Large skived drain holes to handle chunky and viscous material
- Kink and accordion resistant
- 41cm working length
- Tapered, friction fit hub to attach to standard tapered connectors found on most water seal devices and 2-liter drainage bags
- Matched .038" cannula for over-the-wire insertion
- Radiopaque stripe to minimize imaging artifacts
- Hydrophilic coated for ease of insertion

* Working length is equal to the distance between the hub or stress relief and the proximal drain hole.

Set includes catheter and .038" cannula.

Size/Length*	Hydrophilic coated	Units/box
20F/41 cm	LBNL-2050H	5
24F/41 cm	LBNL-2450H	5
28F/41 cm	LBNL-2850H	5
